Dear Exhibitor,

This fall the Studio will be releasing director Ang Lee’s highly anticipated action thriller, **GEMINI MAN**, starring Will Smith. Ang’s unique vision for this film includes recording and projecting in the most pristine and immersive formats. We want to do everything possible to make projecting the high frame rate version of GEMINI MAN a turnkey experience for you and provide audiences the latest technological advancement in cinema.

In advance, we would kindly request you take a few minutes to play a short piece of test footage to see if your theatre is High Frame Rate capable. The test footage is a short generic piece and is not taken from the action film.

Test instructions are shown below. Once completed, we would ask you to answer a short questionnaire and return to me by March 22nd 2019

If you have any questions or issues please contact: **Your Paramount Representative**

Regards,

Jim Smith

SVP Worldwide Operations

Jim\_Smith@Paramount.com

## **HFR TEST INSTRUCTIONS - ACTIONS REQUIRED**

### **60 fps 3D-capable equipment**

- Sony: 200-300 series models require a HFR license.

### **60 fps 3D- and 120 fps 2D-capable equipment**

- Barco: All DLP series 2 projectors with an integrated media block.
- NEC: All DLP series 2 projectors with an integrated media block.
- Christie: All DLP series 2 projectors with an integrated media block and a HFR license

In all cases, you should make sure your equipment is updated with the latest firmware. You are highly likely to encounter problems if you have not updated your software/firmware. DLP series 1 projectors and series 2 projectors without an IMB are not HFR capable.

**We have made test footage available at** <https://ql.mediasilo.com/#ql/5c630928e4b05d699980d7ad>

Based on the capabilities list above, please download the package(s) which your equipment should be able to play (after download click "save") and load them on your server.

For PC Users; if you experience issues transferring the downloaded 2D/3D file from your hard drive to a USB please try the following:

Open zipped file by double clicking on the file or using 7-Zip to open archive. Once opened, drag and drop each file individually from your hard drive to the USB.

**To order keys please follow the link to the CKM new user registration page:**

**<https://one.bydeluxe.com/self-registration>**

**If you're already a registered user: <https://one.bydeluxe.com/>**

Projectors should be set up as follows:

**\*All Projectors should be setup with a channel for 60fps 3D SINGLE FLASH!\***

**Barco:** Single flash is accomplished by setting "Frame Rate Multiplication" ratio of 1:1 or 2:2. Under Configuration > 3D> 3D Settings

**Christie:** Single flash is accomplished by setting "Frame Rate N:M" ratio of 1:1 or 2 :2. Under Menu > Advanced Setup > High Frame Rate 3D File Setup

**NEC:** for configuring NEC projectors to single flash, please contact NEC or your projector service company

**Sony:** Sony Projectors and dual projector systems (Dolby, Imax, etc) *do not need to be configured for single flash*

Note: There will be a 24 fps version available for those unable to present HFR. **\*\*Please complete the attached questionnaire and return via email to [HFR\\_Feedbak@Paramount.com](mailto:HFR_Feedbak@Paramount.com) by March 15th 2019\*\***
